Each and every faculty should have more focus on their academic career, must have to participate seminars, workshops etc. The teachers should be updated them always by participating FDP every year.

A proper dynamic system should be adopted and library should be e-library.

Teachers should upgrade themselves time to time. New methods and techniques should be used to improve the quality of the students. And assess the improvement of the students.

The institution is newly provincialised as a result not yet got so much funds for infrastructural development. If we get financial Grant, we can develop more.

To get NAAC accreditation

I think there is a need for library development, if there are enough books in the library, the academic environment of the college can be improved. Along with the teachers, the students will more benefited.

We should follow the instructions of University and time to time discuss among teachers and students.

If any institution strictly follow the instructions of UGC and NAAC related institutional development I hope this will improve the academic performance and ambience of the institution.

Need (a) preparing of more effective plans for getting continuous improvement and Consistent success, (b) proper distribution of extra-curricular responsibilities while preserving everyone rights, dignity and distinctions, and (c) having a generous attitudes of accountability to stakeholders.

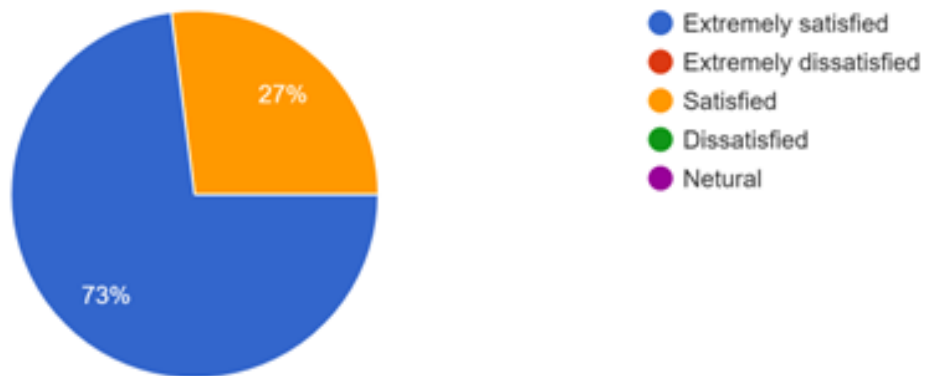

I suggest that for canteen a separate infrastructure should be there. College campus should be green more & more.
